Snowmobile Museum

*Supertrac's Racing Museum
Owned and Operated by
Art Bilous & Yorkton
Distributors, Yorkton, Sask.*

*Visit Canada's Premium Collection
of Rare Vintage Sleds*

This may be one of the largest, most impressive collection of old sleds you will ever see.

Over 90 sleds line the Super-Trac's museum. Art Bilous has been seriously collecting sleds for over 20 years. Each sled has some history documented and are all race-ready.

The collection includes 35 world title sleds and 4 Hall of Famer Driven Sleds:

- Jaques Villeneuve – St. Cuthbert, QC
- Mike, Allen & Chuck Decker – Eagle River, WI
- Bobby Donahue – Minneapolis, MN
- Dave Wahl – Greenbush, MN

Arctic Cat, Polaris, Ski-Doo, Yamaha and Sno-Jet are all showcased in this unique collection.

The majority of the sleds were raced on oval ice tracks and drag strips, but there are a few that were actually built to race on asphalt!

The museum has been featured in several articles published in Canada's premier snowmobiling magazine, SnoRiders West.

The Survivors of Ice and Snow - Not Just "Racers" But "Legends"

The SuperTrac's Museum now includes two 1971 Chevelle Cars.
